

Over €61 million paid out in 2002 under Sports Capital Programme

John O'Donoghue TD, Minister for Arts, Sport and Tourism, today (22nd January, 2003) announced that, during 2002, payments amounting to a massive €61,323,096 were made by his Department under the Sports Capital Programme.

The national lottery-funded Sports Capital Programme, which is administered by the Department of Arts, Sport and Tourism, provides funding to sporting and community organisations at local, regional and national level throughout the country towards the provision of sport and recreational facilities. Under the Programme, funding is allocated on the basis of individual applications received, with special priority being given to proposals for facilities in disadvantaged areas, in line with Government policy aimed at increasing participation in sport and recreation in these areas.

Commenting on the 2002 figure, the Minister said "More money was paid out by my Department last year than ever before under the Sports Capital Programme. From club and community level to regional and national level across all sporting activities, an unprecedented level of investment has taken place over the past several years, with allocations in excess of €213 million being made to more than 2,900 projects throughout the country since 1998. In addition, funding to the value of €63.49 million has been provided towards the redevelopment of Croke Park over the same period".

"Such substantial investment illustrates once again the huge progress made by this Government in the provision and level of sport and recreational facilities being provided in villages, towns and cities throughout the length and breadth of the country".

ENDS.

Note for editors

Background information on the Sports Capital Programme

The aims and objectives of the Sports Capital Programme are to:

- develop an integrated and planned approach to the development of sport and recreational facilities;
- assist voluntary and community organisations with the development of appropriate facilities in appropriate locations that will maximise use in terms of participation in sport and recreation;
- prioritise the needs of disadvantaged areas in the provision of facilities; and
- encourage the multi-purpose use of facilities at national, regional and community level by clubs, community organisations and National Governing Bodies of Sport (NGBs).

Applications by or on behalf of the following bodies are considered:

- voluntary and community organisations, including sports clubs;
- in certain circumstances, schools, colleges and local authorities; and
- national governing bodies of sport and third level education institutions, where it is evident that the proposed facility will contribute to the regional and/or national sporting infrastructure.

All applications are treated on their merits and highest priority is afforded to projects in disadvantaged areas aimed at increasing participation, particularly for young people. High priority projects will include those that are essential or integral to sports participation or performance, e.g. pitch development, floodlighting, dressing rooms/showers.

The assessment process on individual applications is carried out by officers from the Sports Unit of the Department of Arts, Sport and Tourism who will consult, as appropriate, with other Government Departments, State Agencies and National Governing Bodies of Sport. Recommendations are then made to the Minister, who makes the final decision on projects and grants to be allocated under the Programme.

Summary of funding allocated under the Sports Capital Programme 1998 – 2002:

▪ Gaelic Games	-	€8.343 million
▪ Soccer	-	€40.186 million
▪ Rugby	-	€6.789 million
▪ Other Sports/Projects	-	€7.894 million
▪ Total	-	€13.212 million

Note: A complete breakdown of the €1m paid out in 2002 under the Sports Capital Programme is available in the Pressroom of the Department's website (www.gov.ie/arts-sport-tourism)
